UPTOWN’S
Fall
WORSHIP
GUIDE
FOR KIDS

2020

Draw what the sermon was about today!
We are so excited your child is in worship! It is important that they are included in this experience at a young age. Witnessing their friends and families model for them what worship is can be one of the best ways for them to learn. Our prayer is that this children’s worship guide will be a fun resource to aid them in participating in corporate worship with their church!

**Upcoming Events**

- Be sure to check out our virtual Sunday School Resources.

**THE MUSIC**

What words did you hear repeated in the songs?

________________________________________________________________________

________________________________________________________________________

What words did you learn about God from these songs?

________________________________________________________________________

________________________________________________________________________

**THE SERMON**

What Bible verse is used today? Can you find it in your Bible?

________________________________________________________________________

________________________________________________________________________

Write the new words that you had never heard before!
